

Deal Drawer

- Flush Appearance
- Ball Bearing Glides
- Drawer Unit has Stainless Steel Construction

Our Deal Drawer is built to be recessed in the counter top along the front edge to achieve a flush appearance. Glazing above the flat hood portion provides a barrier that doesn't obstruct operation of drawer. A full width handle across the rear of the drawer pushes it smoothly along ball bearing glides for easy operation. Lexan lid will not open when drawer is extended. Drawer unit has stainless steel construction. Complete unit is fully assembled and ready for installation. An overhang or awning is recommended if used in an exterior application.
