

Vision Window Frame for Bullet Resistant Doors

NEW

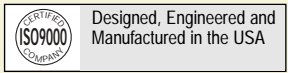

- Each Unit is Customized and Fabricated to Fit Your Specified Opening
- Available without Glazing or with Your Choice of Glazing Bullet Resistant
- Brushed Stainless Steel Finish

This stainless steel Vision Window Frame allows the addition of a Vision Window to almost any door. Commonly used in security applications, Vision Windows provide a means of viewing people before allowing access into a secured area. Vision Windows are for interior or exterior use, and are available with your choice of bullet resistant glazing. Manufactured from 11 gauge stainless steel with a brushed finish, Vision Window Frames are fabricated in sizes to fit your specified opening.
