

Heavy-Duty Rectangular Glass Convex Mirrors

- Excellent for Areas With Low Ceilings

The Heavy-Duty Rectangular Glass Type Convex Mirrors are excellent for areas with low ceilings and tight areas in elevators and corners, yet still allowing a wide viewing angle. Perfect for those settings with strong horizontal or vertical décor, such as above or below moldings. These mirrors are easy to install, will mount almost anywhere and fully adjust to any angle. Each mirror is individually packed, has an ABS Plastic backing that is extremely durable, with an adjustable mounting bracket and installation instructions.

Sealed Edge Trim to Protect Mirror
