

Large Capacity Transaction Drawer

Popular Thru-Wall and In-Counter Models

Our Large Capacity Transaction Drawer is available in two different configurations; one designed to be installed into a counter, one designed to allow thru-wall installation. Simply choose the drawer that accommodates your installation requirements.

Suitable for drive-up and walk up service, this weather resistant drawer has a lexan lid to allow clear view of contents while preventing direct entry of outside air. Stainless steel front panel pivots up as drawer is extended. Push button latch keeps drawer lid locked when closed. Inside measurements of drawer are 12-7/8" wide x 20-3/4" deep x 6-1/4" high.

In-Counter Mount

Thru-Wall Mount
